- **Tech Stack: SQL,PL/SQL**

Projects

StudyBridge || *React,Nodejs, Tailwind CSS, Firebase*

- * Solved a real-world problem by creating a website, addressing 80% of college student issues.
- * Providing students with previous semesters exam papers on a single platform helping them to have a idea of exam of a particular subject
- * The project also allows students to view **Interview Experiences** shared by alumni, giving them insights into job preparation.
- * alumini can come here and can share experience about the interview for their juniors
- * Exclusively utilized Firebase for **Google authentication**,
- * Currently 100+ users have registerd to this website and have their login details
- * Got a traffic of 100+ users on this website and will definitely achieve more as there is huge traffic in this sector

RESTAURANT WEBSITE || *React, Tailwind CSS, Firebase*

Project Link

- * Developed a responsive restaurant web application using React and Firebase.
- * Implemented secure Google authentication through Firebase to enhance user registration and login processes.
- * Developed a seamless food ordering system with integrated cart functionality for an enhanced user experience, allowing users to easily add items to their cart in the food section and seamlessly transition to the cart section.
- * Integrated Firebase database to manage real-time data, implementing features such as dynamic menu updates, order processing, and secure user authentication..

Next Js Auth || *Nextjs,TypeScript*

- * Demonstrated expertise in both frontend and backend technologies by building an integrated, end-to-end authentication system.
- * Provided smooth account creation and login functionalities, optimizing performance through server-side rendering in Next.js.
- * Developed robust API routes in Next.js to handle user authentication, registration, and token management efficiently
- * Utilized MongoDB to store and manage user credentials, ensuring data integrity and fast retrieval.

Recognition

- * solved 500+ questions on geeksforgeeks.
- * On Leetcode 250+ questions
- * practiced over 700+ questions of Data structure
